

**Safety Data Sheet**

according to Regulation (EC) No. 1907/2006

**Safety Data Sheet (SDS) cover page for product:**

FeSSIF Buffer Concentrate

Version:	V2.2
Revision date	13 October 2022
Date of last issue:	29 September 2022
Date of first issue:	12 June 2019
Language:	English

Email: [sds@biorelevant.com](mailto:sds@biorelevant.com)

---

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Name	FeSSIF Buffer Concentrate
Description	Liquid concentrate for preparation of FeSSIF buffer
Code	FESBUF
Type	Mixture
Manufacturer	Biorelevant

#### Other means of identification

Clear aqueous solution in translucent HDPE bottle.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Laboratory reagents.

### 1.3 Details of the supplier of the safety data sheet

Name	Biorelevant
Address	QMB Innovation Centre 42 New Road London, E1 2AX United Kingdom
Telephone	+44 (0)20 7790 5328
Email	sds@biorelevant.com

### 1.4 Emergency telephone number

+44 (0)20 7790 5328

---

## SECTION 2: Hazards identification

### General hazard statement

Substances are not classified as dangerous according to European Union legislation.

### 2.1 Classification of the substances or mixtures

#### Classification according to Regulation (EC) No 1272/2008 (CLP)

H290	May be corrosive to metals
H315	Skin irritation
H319	Eye irritation

### 2.2 Label elements

#### Labelling according to Regulation (EC) No 1272/2008 [CLP]

#### Hazard pictograms

#### Signal word

Irritant

#### Hazard statement(s)

H290	May be corrosive to metals
H315	Skin irritation
H319	Eye irritation

#### Precautionary statement(s)

P234	Keep only in original container
------	---------------------------------

### 2.3 Other hazards

This mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

---

## SECTION 3: Composition/information on ingredients

### 3.1 Substance

Not applicable.

### 3.2 Mixtures

Hazardous ingredient:

#### Acetic acid

Concentration	5-15% weight in aqueous solution
EC no.	200-580-7
CAS no.	64-19-7
Index no.	607-002-00-6
H290	May be corrosive to metals
H315	Skin irritation
H319	Eye irritation

According to the majority of notifications provided by companies to ECHA in CLP notifications no hazards have been classified for other ingredients.

---

## SECTION 4: First aid measures

### 4.1 Description of first aid measures

General notes	In case of accident or if you feel unwell, seek medical advice immediately (show SDS where possible).
In case of inhalation	Move person into fresh air. If symptoms persist, call a physician.
In case of skin contact	Wash with plenty of water for at least 15 minutes. Remove contaminated clothing and wash it before reuse. If irritation develops or persists, call a physician.
In case of eye contact	Remove contact lenses. Protect unharmed eye. Rinse cautiously with water for at least 15 minutes. If eye irritation persists, call a physician.
In case of ingestion	If accidentally ingested, rinse mouth with water. Give plenty of water to drink. If vomiting occurs give further water, call a physician.
Self-protection of the first aider	Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination.

### 4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in section 11.

### 4.3 Indication of any immediate medical attention and special treatment needed

Note to physician: treat symptomatically.

---

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

### 5.2 Special hazards arising from the substance or mixture

Combustible. Vapours are heavier than air and may spread along floors. Forms explosive mixtures with air at elevated temperatures. Development of hazardous combustion gases or vapours possible in the event of fire.

Fire may cause evolution of: Acetic acid vapours.

### 5.3 Advice for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

---

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment to prevent contamination of skin, eyes and personal clothing. Ensure adequate ventilation. Remove ignition sources.

Advice for non-emergency personnel: Evacuate the danger area, observe emergency procedures, consult an expert.

Advice for emergency responders: Protective equipment see Section 8.

### 6.2 Environmental precautions

No special environmental precautions required.

### 6.3 Methods and material for containment and cleaning up

Stop the spill if it can be done safely. Collect the material with mechanic means, wearing appropriate protective equipment, and store in a clean and appropriate waste disposal container. Wash the area with water.

### 6.4 Reference to other sections

See Section 13.

---

## SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

Wear personal protective equipment. Ensure adequate ventilation. Avoid breathing vapour, mist, or gas. Avoid contact with skin and eyes. Avoid ingestion and inhalation. Change contaminated clothing. Wash hands after working with mixtures. For precautions see Section 2.

### 7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well-ventilated place at room temperature. Do not transfer out of original container. Containers which are opened must be carefully resealed and kept upright to prevent leakage. After opening store at room temperature.

### 7.3 Specific end use(s)

Laboratory reagents.

---

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

National occupational exposure limits have not been developed for this material.

### 8.2 Exposure controls

#### Personal protection equipment:

#### Eye and face protection

Use safety glasses for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

#### Skin protection

Wear appropriate protective gloves to prevent skin exposure (minimum requirement).

#### Body protection

Wear appropriate personal protective equipment.

#### Respiratory protection

Not required under normal use conditions.

#### Thermal hazards

No data available.

#### Environmental exposure controls

No special environmental precautions required.

#### Appropriate engineering controls

Ensure that eyewash stations and safety showers are close to the workstation location.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source.

---

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

Appearance	Clear aqueous solution
Odour	Odourless
Odour threshold	No information available
pH	No information available
Melting point / freezing point	No information available
Initial boiling point and boiling range	No information available
Flash point	No information available
Evaporation rate	No information available
Flammability (solid, gas)	No information available
Upper/lower flammability limits	No information available
Upper/lower explosive limits	No information available
Vapour pressure	No information available
Vapour density	No information available
Relative density	No information available
Solubility	Miscible with water
Partition coefficient: n-octanol/water	No information available
Auto-ignition temperature	No information available
Decomposition temperature	No information available
Viscosity	No information available
Explosive properties	No information available
Oxidising properties	No information available

### 9.2 Other information

No other relevant information to be added to Section 9.

---

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

None under normal use conditions.

### 10.2 Chemical stability

Stable under normal conditions.

### 10.3 Possibility of hazardous reactions

None under normal use conditions. Hazardous decomposition products formed under fire conditions.

Generates dangerous gases or fumes in contact with Metals. Risk of explosion/exothermic reaction with Alkali metals. Exothermic reaction with: Lithium.

### 10.4 Conditions to avoid

Incompatible products. Excess heat: do not expose to heat or ignition sources.

### 10.5 Incompatible materials

Metals, metal alloys.

### 10.6 Hazardous decomposition products

In the event of fire: see Section 5.

---

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

#### Acute toxicity

No data available.

#### Skin corrosion/irritation

## Safety Data Sheet for FeSSIF Buffer Concentrate

Possible slight irritation.

### **Serious eye damage/irritation**

Causes eye irritation.

### **Respiratory or skin sensitization**

May cause irritation to the respiratory system. No skin sensitisation data available.

### **Germ cell mutagenicity**

No data available.

### **Carcinogenicity**

No data available.

### **Reproductive toxicity**

No data available.

### **Summary of evaluation of the CMR properties**

No data available.

### **STOT-single exposure**

No data available.

### **STOT-repeated exposure**

No data available.

### **Aspiration hazard**

No data available.

### **Additional information**

When the product is handled appropriately, hazardous effects are unlikely to occur.

---

## **SECTION 12: Ecological information**

### **12.1 Toxicity**

Contains no substances known to be hazardous to the environment or that are not degradable in wastewater treatment plants.

### **12.2 Persistence and degradability**

Highly soluble in water: persistence is unlikely.

### **12.3 Bio-accumulative potential**

No data available for assessment.

### **12.4 Mobility in soil**

The product is water soluble and may spread in water systems. Will likely be mobile in the environment due to its water solubility and thus mobile in soils.

### **12.5 Results of PBT and vPvB assessment**

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

### **12.6 Other adverse effects**

No other adverse effects are expected.

### **12.7 Other information**

No other relevant information to be added to Section 12.

---

## **SECTION 13: Disposal considerations**

### **13.1 Waste treatment methods**

#### **Disposal of the product**

Any disposal practice must be in compliance with all local and national laws and regulations. Send to controlled landfills or authorized incinerators. Leave chemicals in original containers. Handle uncleaned containers like the product itself.

#### **Disposal of contaminated packaging**

Dispose of as unused product.

**Waste treatment**

Do not dispose of waste into sewer.

**Sewage disposal**

Do not dispose of waste into sewer.

---

**SECTION 14: Transport information**

**Land transport (ADR/RID)**

**14.1 - 14.6**

Not regulated as a dangerous good.

**Inland waterway transport (ADN)**

**14.1 - 14.6**

Not regulated as a dangerous good.

**Air transport (IATA)**

**14.1 - 14.6**

Not regulated as a dangerous good.

**Sea transport (IMDG)**

**14.1 - 14.6**

Not regulated as a dangerous good.

**14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

Not applicable for product as supplied.

---

**SECTION 15: Regulatory information**

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

This substance is not listed in the Annex I of Directive 96/82/CE.

**15.2 Chemical Safety Assessment**

A chemical safety assessment has not been carried out.

---

**SECTION 16: Other information**

**Full text of hazard statements for FeSSIF buffer concentrate referenced in Section 2**

H290	May be corrosive to metals
H315	Causes skin irritation
H319	Causes eye irritation

This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the workplace. Since we cannot control the conditions under which the product may be used, each user must review the SDS prior to usage in the context of the intended use in order to handle and employ the product in their workplace. If clarification is needed to ensure an appropriate assessment can be made, the user should contact us.

**DISCLAIMER OF RESPONSIBILITY:** This document is generated for the purpose of distributing health, safety, and environmental data. It is not a specification sheet, nor should any displayed data be construed as a specification. The information on this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, expressed or implied, regarding its correctness. Some information presented, and conclusions drawn herein are from sources other than direct data or the substance itself. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage, or expense arising out of or in any way connected with handling, storage, use, or disposal of this product. If the product is used as a component in another product, this SDS information may not be applicable.
